

## **ICIPA 2018**

The 1<sup>st</sup> International Conference of Indonesian Physiotherapy Association  
Aug. 14-16, 2018, Bali, Indonesia

# **CALL FOR PAPERS ABSTRACT GUIDELINES**

### **Topics:**

1. Electrophysical Agent
2. Sport Physiotherapy
3. Musculoskeletal
4. Neuromuscular
5. Cardiovascular
6. Neuroscience
7. Biomedicine
8. Geriatric
9. Pediatric
10. Other relevant topics

### **Important dates :**

Abstract submission deadline	June 25, 2018
Full paper submission deadline	July 7, 2018
Letter of Acceptance	July 17, 2018
Poster or oral presentation submission deadline	August 5, 2018

### **Abstract submission guidelines :**

- Abstract is the original work of the author(s). Abstract that previously submitted for publication or submitted, accepted or presented at other meetings will not be accepted.
- Abstracts should be submitted in Microsoft Word format only and must be prepared exclusively in good English and should be thoroughly checked for spelling and grammar.
- Author(s)'s should include name of author(s) and their affiliation(s). Author(s) should be responsible for providing the correct name of the author and co-author(s). Name should be based on Last Name and Initials. Example: Syakib A, Kurniawan W, Herdiansyah M.R.
- The recommended fonts for author(s)'s name are Arial, 12-point size and single line spacing. Affiliations should be written with Arial, 8-point size and single line spacing.
- The name of the author who will present the poster or oral presentation should be underlined.

- Abstract format **must include** the following items:
  1. Title: the title should be centered at the top of page; must contain with maximum 20 words, font type Arial, 12-point size and single line spacing
  2. Body : should be limited to 250 words, justified, font type Arial, 10-point size and single line spacing
  3. Structure: must include the four subheading
    - **Introduction** – A brief statement on the purpose of the study and the current state of research in the field. Maximum 2 sentences
    - **Methods** – The methods of study must be defined briefly and consist of at least, study design, subject, data collection procedure, and data analyses.
    - **Results** – A summary of the study results, including sufficient details to support the conclusions.
    - **Conclusion** – A statement describing the significance of the work and its implications for physiotherapy field and/or further research.
  4. Key words : related to the research, Three Key words
  
- All presenters of selected abstracts are required to register and pay the appropriate registration fees. Only presenters of selected abstracts who are fully registered and paid will have their abstracts included in the final symposium book.
- Abstract data cannot be altered after the online abstract submission system has closed.
- The type of presentation (oral or poster) choice selected during the submission process is a request only.

**Please notify that all abstracts must be submitted online through the ICIPA website ([www.icipa2018.com](http://www.icipa2018.com)) before/on June 25<sup>th</sup>, 2018. All abstracts submitted after the deadline will not be accepted. Also, please ensure that your e-mail address is accurate at the time of submission. All correspondence will be sent via e-mail to the corresponding author (abstract submitter).**

## ICIPA 2018

The 1<sup>st</sup> International Conference of Indonesian Physiotherapy Association  
Aug. 14-16, 2018, Bali, Indonesia

# Full Paper Guidelines

This document contains the guidelines for preparation of full papers for ICIPA 2018, which will be published in a proceeding. All papers should be written in English, limited to 10 pages and the prescribed paper size is A4.

## 1. Title, Authors' Names, and Affiliations

Your paper should begin with a Title that describes the contents of the paper. The title should be centered at the top of page; must contain with maximum 20 words, font type Arial, 12-point size and single line spacing. Author(s)'s should include name of author(s) and their affiliation(s). Name should be based on Last Name and Initials. The recommended fonts for author(s)'s name are Arial, 12-point size and single line spacing. Author(s)'s affiliations should be written with Arial, 8-point size and single line spacing. Note the use of asterisk (\*) to indicate the corresponding author's e-mail address.

Example :

### THE DIFFERENCES BETWEEN AEROBIC AND ANAEROBIC EXERCISE ON MEMORY FUNCTION

Syakib A<sup>1\*</sup>, Kurniawan W<sup>2</sup>, Herdiansyah M.R<sup>3</sup>

<sup>1</sup> Health Polytechnic Ministry of Health Jakarta III, Jakarta, Indonesia

<sup>2</sup> Physiotherapy Department, RSUD Trenggalek, Trenggalek, East Java, Indonesia  
<sup>3</sup> Neurorestoration Unit, RSUPN Cipto Mangunkusomo, Jakarta, Indonesia

\*Corresponding author: ahmadsyakib@yahoo.co.id

#### Abstract

**Introduction** – A brief statement on the purpose of the study and the current state of research in the field. Maximum 2 sentences. **Methods** – The methods of study must be defined briefly and consist of at least, study design, subject, data collection procedure, and data analyses. **Results** – A summary of the study results, including sufficient details to support the conclusions. **Conclusion** – A statement describing the significance of the work and its implications for physiotherapy field and/or further research.

**Key words:** paper guidelines, instructions, paper length, format, maximum five

## 2. Manuscript Content

In order to write the manuscript, the recommended fonts are Arial, single line spacing, 12-point font for the section title, 11-point font for the main body of text, and 10-point for table and references. Section title should be centered. The text should be structured as **introduction, methods, results, and discussion (IMRAD)**.

### INTRODUCTION

Briefly explain your work rationale and approach and, whenever possible, the possible outcomes your study can reveal.

### METHODS

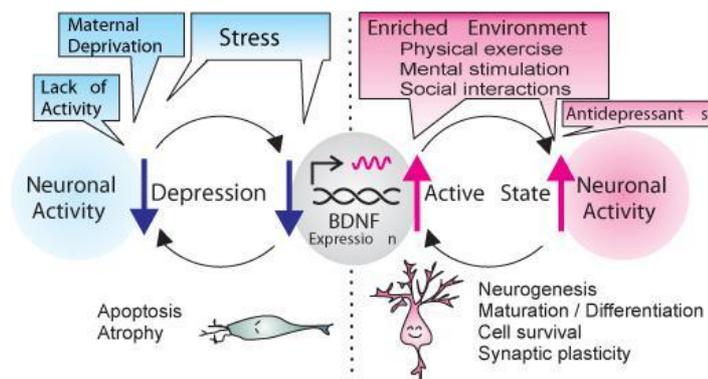

In this section you explain clearly how you carried out your study; for example, the study design, subjects, treatments used, the variable(s) measured, number of samples, the protocol for collecting data, and how the data were analyzed (qualitative analyses and/or statistical procedures used).

### RESULTS

Objectively present your key results, without interpretation, in an orderly and logical sequence using both text and illustrative materials (Tables and Figures). Due to the wide range and complexity of tables, we simply offer an example for guidance. Please follow the style for table (and figure) captions.

**Table 1.** An example for the table

No.	Subject	Treatment
1	X	Aerobic
2	Y	Anaerobic
3	Z	Aerobic

**Fig. 1.** An example for the figure

## DISCUSSION

Interpret your results in light of what was already known about the subject of the investigation, and explain a new understanding of the problem after taking your results into consideration. Conclusion should be stated at last sentence in the discussion.

## ACKNOWLEDGMENTS (include as needed)

If, in your experiment, you received any significant help in thinking up, designing, or carrying out the work, or received materials from someone who did you a favor by supplying them, you must acknowledge their assistance and the service or material provided.

## REFERENCES

References is advisibly not to exceed 25 in number but not less than 10, and should in general be limited to the last decade. We strongly recommend you to write the references with Harvard Style.

Example :

Bruel-Jungerman, E., Laroche, S. and Rampon, C., 2005. New neurons in the dentate gyrus are involved in the expression of enhanced long-term memory following environmental enrichment. *European Journal of Neuroscience*, 21(2), pp.513-521.

Lambert, T.J., Fernandez, S.M. and Frick, K.M., 2005. Different types of environmental enrichment have discrepant effects on spatial memory and synaptophysin levels in female mice. *Neurobiology of learning and memory*, 83(3), pp.206-216.

Nilsson, M., Perfilieva, E., Johansson, U., Orwar, O. and Eriksson, P.S., 1999. Enriched environment increases neurogenesis in the adult rat dentate gyrus and improves spatial memory. *Journal of neurobiology*, 39(4), pp.569-578.

## ICIPA 2018

The 1<sup>st</sup> International Conference of Indonesian Physiotherapy Association  
Aug. 14-16, 2018, Bali, Indonesia

### Poster Presentation Guidelines

Poster presentations of ICIPA 2018 will be conducted as guided poster sessions on three days of the conference (Aug, 14-16, 2018). In the guided poster sessions, posters will be grouped by topic and poster session chairs will guide authors and conference participants interested in the topic through a poster exhibition. During the exhibition, poster authors will be given the opportunity to present a 2-3 minute summary of the major findings described in their poster, after which they can engage directly with participants. Authors are free to join participants during the session, but at least one should be available when it is their turn to present and discuss their poster.

The schedule of the guided poster sessions will be released once accepted abstracts have been announced. Authors are expected to be ready in the venue at least 10 minutes before the session starts. Posters are also eligible for publication as a full paper in the proceeding.

#### Poster Guidelines:

In preparing your poster, please note the following points:

- **Poster boards** should accommodate A0 size portrait posters: height 1189 mm (46.8 inches), width 841 mm (33.1 inches). Please ensure that your display will fit within these parameters.
- **Poster layout: portrait**
- **Title** should be in bold. Author affiliations and corresponding author's e-mail address should be included.
- **Text:** a poster should be easily readable from a distance of 1–2 metres, with a line spacing of 1.5 or 2. Authors should also pay attention to the following points:
  - **Headings** should be 25% larger than normal text. Bold or other colors may be used.
  - **Suggested font sizes** are (for the A0 format):
    - Main title: 78 pt (bold, upper case)
    - Author: 72 pt (bold, title case)
    - Affiliation(s): 48 pt (normal, title case)
    - Email address: 36 pt (bold)
    - Subheading: 54 pt (bold upper case)
    - Body of text: 30 pt (normal)Smaller fonts may be used in tabel, chart, figures, citations and acknowledgement.

#### Your poster should include:

- Title: research title
- Authors: name, affiliations, corresponding author's e-mail address
- Introduction
- Methods
- Results

- Discussion
- Conclusions
- Acknowledgments (if necessary)
- References

**Suggestions for selecting colors and fonts :**

- Use only 2 or 3 colors in the poster as too many colors can be distracting.
- Select font colors and background colors to maximize contrast: A dark font on a light background is more easily read than vice versa
- **The amount of text.** should be kept to a minimum, and each block of text should include no more than a few sentences; to maximize your space efficiency, remove information that is not relevant to the topic.
- To emphasize a point, use bold or italics rather than underlining as underlined words can be more difficult to read.

**Role of the poster presenter :**

- Provide a “guided tour” through the poster.
- Answer questions about the research.
- Provide at least 10 sheets of A4-size of the poster
